- After creating, Click on **create issue** at the bottom of backlog.
- Make the issue an epic.
- And start adding tasks.

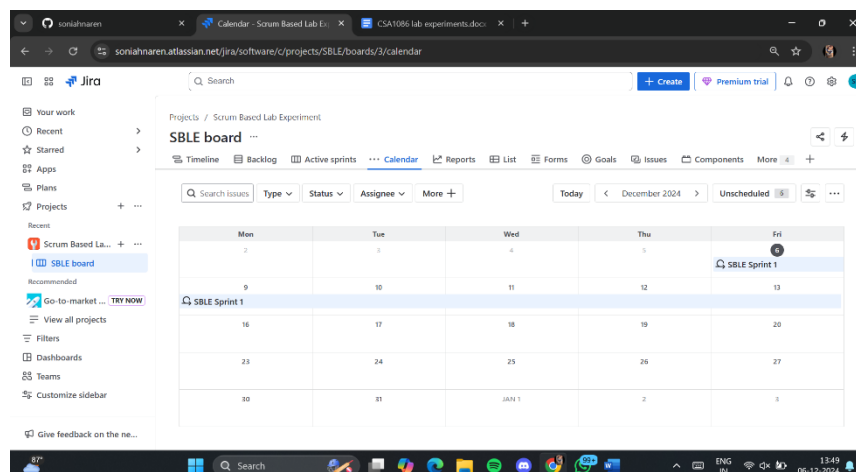

- Add team members and assign them with tasks.

- Set Deadline and update.

- Calender with remainder and deadlines

- Keep updating status of the task.

The screenshot displays the Jira interface for the 'SBLE board' backlog. The browser address bar shows the URL: `soniahnaren.atlassian.net/jira/software/c/projects/SBLE/boards/3/backlog`. The left sidebar contains navigation options like 'Your work', 'Recent', 'Starred', 'Apps', 'Plans', 'Projects', and 'Recent'. The main content area shows the 'SBLE board' with a 'Backlog' tab selected. The backlog is organized into a 'SBLE Sprint 1' (6 Dec - 13 Dec) and a 'Backlog' section. The 'SBLE Sprint 1' section contains three issues: 'SBLE-1 Define experiment goals and success criteria.', 'SBLE-2 Create user stories for experiment related tasks.', and 'SBLE-6 Design UI/UX - Figma'. The 'SBLE-2' issue is currently in the 'IN PROGRESS' status, and a dropdown menu is open showing 'TO DO', 'DONE', and 'View workflow' options. The 'Backlog' section contains three issues. The bottom of the screen shows the Windows taskbar with various application icons and the system clock indicating 13:54 on 06-12-2024.
